Upcoming Meeting

Tuesday, October 11, 2016 at 7 PM - We will listen to a pre-recorded program by Art Wolfe the internationally acclaimed photographer.

President's Letter

By Raleigh Wolfe

Hi Everyone,
October finds us fully into our camera club year. We had our first competition, and the winners' images will be in CACCA competition on October 8, 2016.

Unfortunately, due to a significant schedule conflict, Norm Turner will be unable to present his program on Night Photography or oversee a field trip into Chicago for a night shoot in October. However, both events have been happily rescheduled for November.

The October 11th program will be a recorded presentation by Art Wolfe, an internationally famous photographer. I have had the pleasure of studying with Art, and I always tease that I am his younger brother. His presentation will include Choosing the Right Lens and Composition, Finding the Subject, and the Deadly Sins of Composition. I believe you will enjoy this program, and I know you will learn a lot from it.

Lastly, remember that we have two exciting field trips scheduled for October. The first is Dave Dornberg's mentoring trip on October 14th to the Little Red Schoolhouse in Willow Springs, IL. The second field trip is to Hamstra Gardens in Wheatfield, IN on October 22nd. Please let Dave know, or myself, if you plan to attend either or both of these field trips. They are open to all club members. Thanks.

I hope you get lots of great photographs this Autumn including Trick or Treaters this Halloween. See you at the meetings.

October Field Trips

October 14 - Little Red Schoolhouse in Willow Spring, IL
This will be our first mentoring field trip so that members can practice what they learned at the first two mentoring meetings. See our website for more information.

October 22 - Hamstra Gardens in Wheatfield, IN. This trip will be led by Steve Kaminsky. For images of the gardens and more information, please see our website.

Mentoring Meetings

The next mentoring meeting will take place on Tuesday, October 18 at 7 PM. How to Bracket photos will be discussed and a camera on a tripod will be used to show the method of live view and bracketing.
